

Fluidomec[®]

international s.r.l.

- Hydraulic Cylinders and Components -

Since 20 years, Fluidomec International srl has been in trade with the production of hydraulic cylinders.

The wide range of components and cylinders gives our customers the opportunity to choose among several technical and economical solutions.

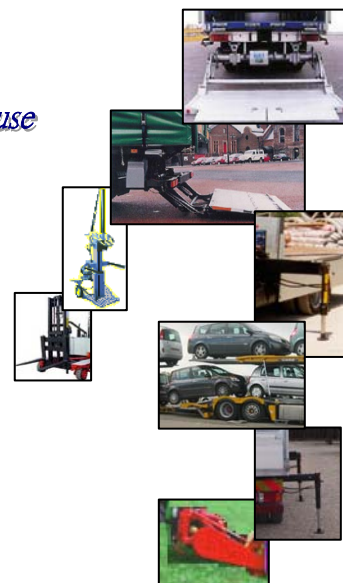

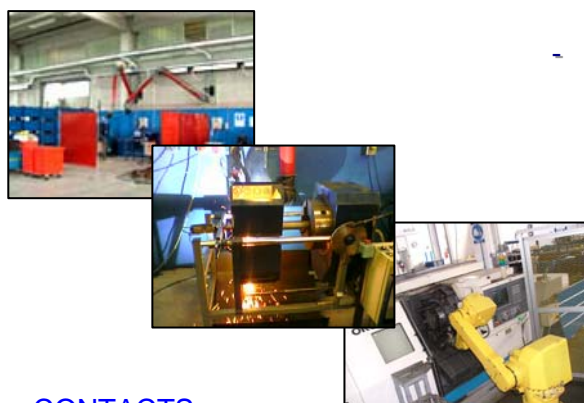

Fluidomec International srl places itself as a dynamic and reliable partner, thanks to our young co-workers and to continuous research.

A particular thanks must go to our customers, as they motivate us to increase and develop our production and services with their confidence and collaboration.

PRODUCTS:

- *Cylinders for agricultural and industrial use*
- *Commercial components*
- *Special components*
- *Seals*
